

Ventilator Vertical Silver

Model No: (APVE 121)

Ventilator Vertical Silver Supplied by Anesthesia Products India

Specs:-

Ventilator Vertical Silver is a multi-functional Ventilator and is applicable for children and adults in sickroom, ICU or of emergency.

Display Mode : High-definition 5.7" LCD screen display

Ventilation Mode : IPPV, SIPPV, SIMV, MANUAL

Ventilation Function : PEEP, SIGH, IRV

Ventilation Parameters

Tidal volume 50~1500ml

Rate 2~99bpm

SIMV rate 2~20bpm

I:E 2:1~1:8

Inspiratory trigger pressure -1.0~2.0 kPa

PEEP 0~2.0 kPa

Pressure range 1.0~6.0 kPa

SIGH 1.5 times the inspiratory time

Parameters for ventilation monitoring tidal volume, minute ventilation volume, IPPV rate, SIMV rate, total respiratory rate, I/E, peak pressure of airway, pressure - time waveform, flow rate - time waveform, PEEP, inspiratory trigger pressure Security Alarm System

Upper limit setting range 1.0~6.0 kPa

Low limit setting range 0.4 ~ 2.0 kPa

Per-minute ventilation volume alarm	Upper limit setting range	3.0~30L/min
-------------------------------------	---------------------------	-------------

Low limit setting range 1.0~10L/min

Sustained high-pressure alarm	It will give alarm when stress have consistently been higher than 2.5 kPa
-------------------------------	---

Suffocation alarm It will give sound and light alarm if there is no tidal volume input for 15 seconds

Power alarm

Power	AC 220V±10% 50Hz±1Hz UPS, Storage battery
-------	---

Mechanical Arms

We are Exporters and Suppliers of Ventilator Vertical Silver at competitive prices from India
